

Wellmed Pro | Wellview Universal Group

TECHNICAL DATA SHEET

YSAED-DP1 Automated External Defibrillator AED

Features

- * Biphasic Truncated Exponential with low energy to minimize myocardial injury
- * Not rechargeable Li-MnO₂ battery with high capacity supporting up to 400 shocks
- * Automatic recording of ECG data & around sounds throughout the complete operating
- * Preinstalled electrode pads with compatibility to adult and child
- * One step operating for cover open and power on at the same time
- * Daily selftest and automatic selftest upon power on
- * Available with adult mode and child mode
- * Automatic voice guide throughout the complete operation
- * Automatic indication of unit status
- * Alarm of low battery capacity and change of new one
- * Optional PC software for data retrieve and download

Advantage of Low Energy BTE

- * Automatic compensation and adjustment of waveform as per load impedance
- * Shorter time in ECG analysis and shock preparation
- * Simultaneous ECG analysis and precharging
- * Higher success rate in defibrillating
- * With minimum injury to myocardium
- * Better for rehabilitation
- * Faster in response

ECG Analysis

8.5 Second

Battery Pack

Non rechargeable Li-Mn battery of 12V, 6 Ah

Hi-Cap Charging

8 Second

Shock Frequency

Not less than 400 times

Shock output

50 ~150 J

Electrode Pads

Disposable and adhesive

Adult/pediatric compatible

Preinstalled

Data Storage

Complete recording

Standard Configuration

1xmain unit, 1xbattery pack, 1xelectrode pads (2 pcs), 1xcarry case, 1xwarranty

Data Communication

Bluetooth, 4G, GPS

Optional Configuration

Standing/wall mount cabinet, first aid kit

Button Operating

Power, Shock

Warranty

1 year

Panama | Central America | Caribbean | CARICOM
