Features:

1. The newly-designed model with opening water tank on the top, strictly meets the standard of EN13060, which makes wash and cleaning much more convenient.

2. It adopts European B standard with 3-times pre-vacuum preceding vacuum drying. Residual humidity is less than 0.2%.
3. Vacuum measurement reaches -0.8bar. It sterilizes and sanitizes miscellaneous packed or unpacked medical instruments, Whether solid or A-type hollow, whether with multi-apertures or inset pipes. It efficiently tides air from every hollow area of any hollow instrument, such as hand-piece, making sure that water steam reaches every corner.
4. Fuzzily computer controlled, digital bright show. The interface is modularized panel for easy operation.
5. It is installed with BOWIE&DICK which measures the penetration of water steam.
6. Mini printer can be attached to record the process of sterilization
