TECHNICAL DATA SHEET

64-Channel Portable EEG Machine YSEEG-F64

Channels

24/32/64

Functions

Routine EEG/ Ambulatory EEG(Holter)/Video EEG

Features

Compact design - portable and easy to carry

Complete with EEG isolation - support maximum patient movement without distortion

User-friendly operation

Low power consumption - capable of supporting up to 72 hours recording with batteries

Supports real-time EEG waveform recording and display via Wi-Fi

Dynamic recording with Flash memory card

All-in-one electrode cable for easy connection

Use of DC power supply

Eliminates risk of electric shock to patients

Prevents signal interference

Removes the need to use ground wire or other shielding features

Fast data uploading capability - stored data in Flash memory card can be quickly transferred to the computer through USB 2.0/USB1.1 Interface

Optional video system - Recording, Editing and Displaying of video synchronously with EEG signal

New EEG holter support 24CH/32CH EEG recording, or 16CH/24CH EEG+8 Bipolar channels for ECG and EMG.
