TECHNICAL DATA SHEET

Binocular Biological Microscope YSXWJ-BX301C

Features

Fully coated optical system, mechanical tube length 160mm.

Sliding or compensation-free binocular head, interpupillary distance 55-75mm, 360°rotatable.

Double layers mechanical stage: stage size 135X146mm, moving range 50X76mm.

Coaxial coarse and fine focus adjustment: range 25mm, division of fine focus adjustment 0.0018mm.

Focusing stop to prevent objectives & slides from damaging, CA Konb Tension Control.

RACK and pinion adjustment for the condenser.

Built-in Illumination, Adjustable Brightness.

Power supply 85V~265V or 3W LED.

Application

The series biological microscope is a sliding binocular head inclined at 45°.

It is designed for use in medical institutes, research institutes, and colleges for conventional microscopic examination, general biological and bacteriological studies, clinical investigations, and classroom demonstrations.

Panama | Central America | Caribbean | CARICOM
