TECHNICAL DATA SHEET

Color Doppler ultrasound system CHISON Q5

Color Doppler ultrasound system CHISON Q5

CHISON Q5 delivers superb image quality for multi-applications in abdomen,OB/GYN,small parts, urology and MSK. With the advanced technologies of SRA, THI, it provides better contrast resolution, which greatly helps the diagnosis of difficult-to-scan patients.

A work-flow oriented User Interface is built to allow user-friendly operation with minimum soft key entries. Ergonomical design of keyboard, 15 inch LCD large display, double probe connectors, USB and DICOM connectivity make your scan FAST and EASY, and allow you to focus more on your patients.

MULTI-BEAM FORMER TECHNOLOGY

COMPOUNDING TECHNOLOGY

SPECKLE REDUCTION ALGORITHM(SRA)

STREAMLINED WORKFLOW

IMT FUNCTION

Automatically traces the intima, and measures the thickness of the intima. This allows you to measure the intima faster, more easily and more accurately.
