

TECHNICAL DATA SHEET

Electric multi-function operation table YSOT-KJ4D

Technical Parameters

Model

YSOT-KJ4D

Table size

2010mm×500mm

Lifting table

950mm×650mm

Trendelenburg/reverse

Trendelenburg $\geq 25^\circ$ reverse $\geq 20^\circ$

Tilt left/Tilt right

left $\geq 20^\circ$ right $\geq 20^\circ$

Leg plate adjustment range

Downfold $\geq 90^\circ$ demountable abduction 180°

Back plate(up/down)

up $\geq 75^\circ$ down $\geq 10^\circ$

Head plate(up/down)

up $\geq 50^\circ$ down $\geq 90^\circ$ demountable

Functional characteristics

1. Reliable product quality, good reputation, recognized by end-users:

The enterprise has passed the quality system certification:

GB/T19001-2016 idt ISO 9001:2015;

YY/T0287-2017 idt ISO 13485:2016;

Pass GB/T24001-2016 idt ISO 14001:2015 Environment Management System Certification

Passed the European Union CE safety qualified product quality certification

Passed SGS certification.

2. YSOT-KJ4D electric comprehensive operating table for thoracic, abdominal surgery, brain surgery, ophthalmology, otolaryngology, obstetrics and gynecology, urology, orthopedics and other comprehensive operating table.

This product has unique advantages:

Table lifting, forward and backward leaning, left and right leaning, translation and other main body position adjustment are all realized by key operation and electric push rod transmission.

The table can be moved longitudinally, and can be used with C-arm for X-ray diagnosis or film. The panel is made of high strength amine resin board, and the mattress is made of memory sponge mattress.

Leg plate can be detachable, manual rotation abduction, folding, easy adjustment, very convenient urology surgery.

The handheld manipulator adopts 24V DC voltage, which is easy to operate, safe and reliable.

3.The operating table is equipped with high performance rechargeable battery, which can meet the needs of more than 30 surgeries in a single charge, and has intelligent charging and power shortage warning functions.
