HD Endoscope Tower Portable Endoscope Camera Laparoscope YSGW603

HD Endoscope Tower Portable Endoscope Camera Laparoscope

Product advantages:

1. 4 in 1, camera 1000lines + LED light source + monitor+ HD recorder.
2. Intelligent digital full HD effective pixels: 1920(H)*1080(V)
3. Multi-output: HDMI*2, SDI, CVBS, VGA, USB
4. Portable design, convenient for carrying and saving shipping cost
5. Camera head: Freeze & WB button
6. Medical grade HD monitor, 21 inch.
7. With suitcase, easy to carry and save shipping cost.
8. High brightness, could be used for all rigid endoscope surgery without any problem.
9. Light source is customized connector, it accepts fiber light guides with active areas ranging from 3 mm to 10 mm diameter.
10. Wide range power from 100-240V/AC; 50/60 Hz.

Application:

YSGW603 can be used for arthroscopy, ENT, PTED(percutaneous transforaminal endoscopic discectomy), cystoscope, percutaneous nephroscope, ventriculoscope, ductoscope, hysteroscopy, proctoscope, sigmoidoscope, urology resectoscope, plastic surgery endoscope, laparoscope, ductoscopy, breast implant endoscope, thoracoscopy, fiber nasopharyngoscope, fiber choledochoscopy, fiber bronchoscope, fiber ureteroscope, APP hernia repair, lacrimal passage, minimally invasive varicose veins, etc.

Product material:

Set screws use stainless steel material, so screws won't rust off and cause electrical short which extends service life of machine.

Baseboard of inner circuit board uses simple brass and protection cover, which is effective protection to anti-jamming of circuit and ground connection.

3. All signal cables use double-shielded, enhanced anti-jamming material which guarantee the anti-jamming capacity and long working life. The signal cable can stand 50,000 times bend by testing.
