TECHNICAL DATA SHEET

SonoScape E11 Premium Portable Ultrasound System

Reference photograph. Confirm accessories and configuration in the quotation.

As SonoScape's first portable ultrasound series built upon the C-Field+® architecture, the E11 series offers extraordinary image quality along with a comprehensive set of efficiency tools, which are designed to simplify your intricate tasks and save your precious time. With the E11, experience advanced technology that enables faster and more accurate point-of-care diagnostics, all within easy reach.

Effortless Excellence

Equipped with an extensive array of automated measurement tools and AI-driven features that are customized for Point-of-Care departments, along with the SonoFast function specifically engineered for emergency physicians, the E11 is ingeniously designed with the aim of maximizing clinician productivity by saving critical time when every second makes a meaningful difference.

Elegant in Form Potent in Performance

Adjustable Angles

Customizable Height

Cleaness in A Snap

Featuring a fully seamless control panel (seamless touch screen and sealed touchpad), the E11 is expertly engineered for POC departments, enabling hassle-free cleaning & disinfection.

Charge with A Click

The E11's magnetic charging port delivers effortless power-ups while protecting cables from long-term wear and tear.

Charge Less, Scan More

The E-Pack deliver 4 hours of standalone runtime, extendable to 8 hours when paired with trolley batteries ensuring uninterrupted critical workflows.

Expand Your Possibilities

Support 1 to 4 probe extender and unlock endless possibilities in ultrasound imaging!
