TECHNICAL DATA SHEET

Trolley Pediatric Spirometer System Pulmonary Function Testing YSSPR-AP

Product Description

Modular design to achieve different pulmonary function testing function

High sensitivity and low resistance ultrasonic flow transducer , accurate & reliable, excellent curve repeatability

RECO for the disposables, Perfectly eliminate cross -infection

Automatic 0:00 calibration

Real-time BTPS correction

Meet ATS/ERS standards

Software Features

Support projected values for different ethnic groups

Real-time and dynamically breath curve display which enable to assist operators make breath method guidance

Automatic filtering to remove interfering signals and unstable waveforms, the operator can also manually adjust the curve

Support to manually adjust the breathing curve of Tidal breath flow volume loop(TBFV)

Automatically select the best results according to ATS/ERS standards

SQL database with excellent confidentiality ,mass storage, efficient data reading

Panama | Central America | Caribbean | CARICOM
