TECHNICAL DATA SHEET

YSML010-CV 810 Diode Laser

The Diode Laser makes permanent hair removal affordable for you and your clients. Demonstrated efficacy across all skin types has earned this wavelength the "gold standard" designation. Now the Cheveux Diode Laser makes hair removal easier and more affordable than ever.

Advantages:

- Pain-free and comfortable

Slowly increase the temperature by constantly moving the handpiece during treatment, the energy is delivered uniformly, and the patient feels comfortable

The laser system with an efficient skin-cooling system (Sapphire surface contact cooling tip) is used to chill the skin during the treatment period, to minimize the uncomfortable of thermal damage to surrounding skin cells.

- Works with all skin types

The high average power, low fluence, and high repetition rate, so that the energy is delivered safely for all skin types.

- Short treatment

Enables you to treat in only 15-20 minutes

Applications:

Unwanted hair (on the face, axilla, legs, etc)

Specifications:

Wavelength: 810nm

Maximum Fluence: 100J/cm²

Spot Size: 10mmx14mm

Repetition Rate: 1 ~ 10 Hz

Pulse width: Up to 400ms

Output: 500W

Power Supply: 110V/220V

Dimension: 440mm*380mm*970mm

Panama | Central America | Caribbean | CARICOM
